HARDY ASTERS

One of the most neglected plants for the hardy garden. A border with large groups of these showy perennials and the early hardy chrysanthemums will do more to brighten the late summer and autumn than anything else we have ever grown. Hardy asters are better separated to single divisions early each spring.

- CHAS. WILSON**—Bright red variety. Very good35c
HARRINGTONS PINK—The best pink yet produced, being proclaimed as the only real pink aster grown.....50c
IVY LOGAN—Electric blue, brilliant in comparison to the fine variety, Queen Mary50c
MT. EVEREST—One of the best of the white asters. Pyramidal growth with flowers right down to the ground, at25c
MAID OF ATHENS—Single flowers of glorious rose-pink in late Sept. and Oct.50c
SNOWBALL—Large pure white flowers covering the entire plant35c
STRAWBERRIES AND CREAM—New. A lovely combination of deep pink and soft rose pink covering the entire plant. Grows 4 ft. tall. Blooms end of Sept. ..35c
SUNSET GLOW—Bright glowing deep pink giving the flowers a sunset pink shade50c
WINCHELL'S VARIETY—An early flowering variety coming into bloom in mid-August and remaining effective for a long time. New and most popular50c
YPRES—Compact growing aster with rosy red flowers, September and October35c

HARDY DWARF BORDER ASTERS

- COUNTESS OF DUDLEY**—A charming clear pink with contrasting yellow eye25c
LADY HENRY MADDOCKS—Clear pale pink flowers on dwarf compact plants25c
LILAC TIMES—Deep violet blue flowers on 15" plants ..25c
MARJORIE—Bright pink flowers in Oct. on 9" plants ..25c
MRS. F. C. PETERS—A beautiful semi-dwarf of clear soft lavender blue. Outstanding35c

CHRYSANTHEMUMS

Standard Varieties

- ASTRID**—Single pink, heavy foliage, dwarf.
AGLOW—Brilliant orange, good bloomer.
AGNES S. CLARK—Bronzy-Salmon. Outstanding.
ENDEAVOR—Single coral pink.
GOLDEN CHARM—Dwarf, deep golden flowers. One of the best.
INDIAN SUMMER—Double vivid orange.
JUDITH ANDERSON—Our favorite. Clear yellow pompom
KING MIDAS—Yellow tinted bronze, very effective.
NANCY COPELAND—Brilliant single red Korean.
THALIA—Duplex of light orange.
CALIPH—Very double ox blood red.
OCTOBER GIRL—Lavender pink, very satisfactory.

H A V ' A L O O K G A R D E N S

- PIGMY GOLD**—Outstanding dwarf golden button.
THE CHIEF—Semi-double, large scarlet of gold.
THE MOOR—Early deep purple, double flower.
EARLY BRONZE—Orange bronze, short, early.
A. BARHAM—Reddish bronze, early October.
EMBER—A brilliant russet bronze, excellent.
PINK LUSTER—Pale lavender pink, single.
JEAN TREADWAY—Light rose pink with deeper center.
WOLVERINE—Light yellow, very early.
NORMANDIE—White suffused with pink, short.
VIVID—Amaranth red, striking.

EACH 25c — \$2.00 PER DOZEN

Recent Introductions

- BERGUNDY**—Rich cerise crimson, quite large flowers.
LAVENDER LADY—The only real hardy lavender mum.
MRS. SAM P. ROTAN—Double yellow flowers shading to orange, compact.
RAPTURE—Deep orange shading to bright carmine, colorful.
SYMPHONY—Most lovely, mauve coppery pink and soft lavender in an unusually attractive combination.
WHITE GULL—Very compact, pompom shaped flowers of pure white.

EACH 35c — \$3.00 PER DOZEN

CUSHION OR AZALEA FLOWERED TYPE

- BRONZE CUSHION**—Bronze flowers covering entire plant
PINK CUSHION—Very early, a great favorite.
RED CUSHION—Low bushy plants covered with red flowers.
WHITE CUSHION—White flowers cover the compact plants.
GOLD CUSHION—Golden yellow, masses of bloom.

EACH 25c — \$2.00 PER DOZEN

U. S. Government Varieties

- ALGONQUIN**—Very double 3" flowers, blooming in Sept.
AMOSKEAG—Semi-double large, buff bronze.
GERONIMO—Most attractive, fully double bronze, very early.
POHATCONG—A lovely lavender pink, very attractive.

EACH 35c — \$3.00 PER DOZEN

The Newest Introductions

- ACACIA**—The entire plant covered with small glittering yellow acacia-like blooms.
GOBLIN—A delightful warm rich bronze.
PINK SPOON—Unusually attractive lavender pink with unusual shaped petals.
WHITE SPOON—Paddle shaped petals, unusual.

EACH 40c

CULTURE:—Plant in a sunny well-drained situation using a rich porous soil. After plant has reached a height of six or eight inches pinch the top out to make a better

H A V ' A L O O K G A R D E N S

shaped self-supporting specimen, that will produce more flowering stems. A weekly application of liquid manure after the buds are showing, will produce better flowers. A light covering of excelsior will help keep the plants over winter — this should only be used after the ground has frozen.

HERBS

The re-awakened interest in fragrant old-fashioned herb plants, and the quaint charm they add to any garden, large or small, has caused us to get together a collection of more than one hundred varieties, many of which are offered below:

ACHILLEA tomentosa—Wooly yarrow	25c

OUR LANDSCAPE DEPARTMENT

We are well equipped to carry out landscape planting or design of any sort. Our wide knowledge of plant material gives a distinct advantage over landscape architects who perhaps are artists of design, but have no first hand knowledge of plant material.

We would be pleased to consult with you regarding your new planting or the revamping of your present one. Our prices are as moderate as possible considering the class of work and material we use.

To those interested we would be pleased to send references from those for whom we have worked.
